

As a Continental Airlines platinum frequent flyer and member of its Presidents Club, I strongly support Continental's Petition to the FCC. Internet access while traveling is essential to me and I want Continental to be able to continue to provide its own, free, wireless service to me and other Presidents Club members at Boston Logan and other airports. There are already too many burdensome taxes and costs imposed on air travel and we do not need another. Indeed, to me, this attempt to impose a charge contravenes freedom of the airwaves.

Continental's seamless service wherever I fly is an important aid in my business efficacy. I hope that you will take action to reaffirm the right of the public to use the wireless service of their choice.
